LeetCode: ansh28508 | ⭘ akapoor30 | in ansh-kapoor

EDUCATION

Kalinga Institute of Industrial Technology   Bhubaneswar, Odisha
B.Tech || Computer Science and Engineering   September 2020 - Present
CGPA: 9.01/10

PROJECTS

Chat Application (Chit-Chat) | 🔗

- I developed a MERN stack chat application with Socket.IO for real-time messaging and JWT for user authentication.
- Motivated by the need for secure and versatile communication tools, the project aimed to provide a feature-rich platform for instant conversations and collaborative interactions.
- Building this project expanded my expertise in event-driven architecture with Socket.IO, reinforced my skills in JWT-based user authentication, and deepened my understanding of the MERN stack.
- The hands-on experience included database management with MongoDB, creating RESTful APIs with Express.js, and developing dynamic user interfaces using React.js.
- The chat application has the potential to revolutionize communication by offering a secure and real-time messaging platform.
- With JWT authentication ensuring privacy, the project positively impacts user experience, providing a reliable and trustworthy environment for both casual and professional interactions.
- ***Tech Stack*** *: Mongo DB, ReactJS, NodeJS, ExpressJS, HTML, CSS, JSON Web Tokens (JWT), Socket.io*

Personal Portfolio Website | 🔗

- I developed a React, HTML, and CSS-based portfolio to offer a centralized, visually appealing platform showcasing my skills and experiences.
- The aim was to provide a dynamic and user-friendly representation of my resume, acknowledging the significance of a strong online presence in the digital era.
- Creating this portfolio significantly enhanced my proficiency in React, HTML, and CSS, refining my skills in web development, interface design, and user experience optimization.
- The portfolio acts as a centralized hub, facilitating exploration of my professional journey. Its accessibility and downloadable PDF option streamline resume distribution, strengthening my online presence and serving as a practical tool for insights into my profile for individuals and potential collaborators.
- ***Tech Stack*** *: ReactJs, HTML , CSS*

Weather app | 🔗

- Created a user-friendly weather app with Rapid API integration, streamlining access to real-time weather data for common locations.
- Enhanced API integration, real-time data handling, and front-end design skills while developing a weather application using Rapid API.
- The weather app provides immediate, user-friendly access to reliable forecasts, simplifying daily planning and routines for a broad audience.
- ***Tech Stack*** *: HTML, CSS, Javascript*

HONORS & ACCOMPLISHMENTS

- **Data Structures and Algorithms** || Solved **500+ questions o**n Leetcode and GeeksForGeeks .
- **LeetCode** || Secured a position in **top 4.39% i**n leetcode contests with a rating of 1900 || Secured Global rank 628 in Biweekly Contest 96 .
- **CodeChef** || Highest Rating **1781** | 3 star.

CERTIFICATIONS

- Problem Solving (Intermediate) - **HackerRank**
- Problem Solving (Basic) - **HackerRank**
- SQL(Basic) - **HackerRank**
- CCNAv7: Introduction to Networks - **Cisco Networking Academy**

SKILLS

Programming Languages: (OOPS) C++/C, HTML, CSS, SQL

Libraries/Frameworks: JavaScript, ReactJs, Bootstrap, NodeJS, ExpressJS, Mongoose

Tools / Platforms: GITHUB, Visual Studio Code, Windows,

Databases: MongoDB
